

BILH COVID-19 PCR TESTING PROVIDER CHECKLIST

Complete ✓	Steps to Scheduling COVID-19 PCR Testing at a Different BILH Location
	1. Determine patient's eligibility for COVID-19 PCR testing using the BILH COVID-19 Testing Prioritization and guidelines on operative and non-OR procedures .
	2. If eligible, determine if the patient wishes to be tested at a different BILH site that is more conveniently located. For pre-operative/pre-procedure patients, please consider all necessary testing (e.g., blood work) when determining appropriateness for alternate for COVID-19 testing locations outside of your own facility.
	3. Utilize the BILH Ambulatory COVID-19 Testing Sites Inventory to assist in identifying the appropriate site based on: a. Patient location b. Test site location and hours of operation
	4. Order COVID-19 PCR using the site-specific ordering instructions included in the BILH Ambulatory COVID-19 Testing Sites Inventory . <i>If applicable, be sure to designate the order as preoperative or pre-procedure or it will not be prioritized and unlikely to be resulted prior to procedure.</i>
	5. Inform patient of test location and specifics of appointment including paperwork, if needed
	6. Be aware of how to obtain results, which varies by test site
