Pre-Visit COVID-19 Patient Phone Screening Tool

For use in phone screening at the time of scheduling and 48-72 hours prior to visit. Please also inform the patient that their essential escort/visitor will be screened upon arrival at the facility.

1. **Have you been diagnosed with COVID-19 in the last 21 days?**
   If yes, refer to clinical staff to determine need to be seen before achieving Discontinuation of Precautions in Healthcare Setting Status.

2. **Are you experiencing any of the following symptoms?**
   - Fever (>100.4 deg F) or feeling feverish
   - Chills
   - Body aches
   - Sore throat
   - Cough (new or worsening)
   - Shortness of breath (new or worsening)
   - Diarrhea (new or worsening)
   - Loss of smell or taste

   If yes to at least one symptom, refer to clinical staff to determine if patient should be tested before appointment or seen in an appropriate location for evaluation ("designated COVID care location").

3. **Have you been in contact with anyone who has confirmed COVID-19 in the last two weeks?**
   If yes, refer to clinical staff to determine if patient has been tested as part of MA contact tracing, if they should be tested prior to appointment, or if they should be seen in an appropriate location for evaluation ("designated COVID care location").

*Note that some practices/procedural areas will be using text-based or other electronic versions of this tool rather than phone screening.*
