

Remote Learning Resource List

There are numerous child care and education resources available for parents and caregivers who may be in search of quality child care options or who are juggling remote schooling for their dependents during this time. Beth Israel Lahey Health (BILH) has compiled a list of some of the resources that may be available in our communities solely for ease and information for employees.

Please note that this resource list is for informational purposes only, and BILH does not endorse or represent any resources listed as recommended by BILH. In addition, we encourage families to review and comply with applicable Commonwealth of Massachusetts Child Care Licensing Rules and any other applicable law and regulations. Information is subject to change. Neither BILH nor its subcontractors warrant any information concerning any child care provider, nor do they inspect, investigate, endorse, recommend, or choose any particular provider. The inclusion of any care provider's name does not constitute endorsement or certification by BILH or its partners or vendors regarding their qualifications to provide child care, the rates charged for services, or any other aspect of individual programs' quality of care. Any complaints and problems should be directed to the caregiver and/or the Commonwealth of Massachusetts.

Childcare

Boston's Best Babysitters (Child care and nanny services):
